THALASSEMIA - THE SIGNS, SYMPTOMS AND TREATMENT OF THIS COMMON BLOOD DISORDER

Thalassemia is a blood disorder that affects millions of people worldwide. It's characterized by an abnormal amount of hemoglobin created in red blood cells, which can lead to various signs and symptoms. Treatment for thalassemia includes blood transfusions, managing iron levels in the body, and, depending on the severity of the condition, bone marrow transplants. For those living with thalassemia, it's important to receive regular monitoring and treatment as directed by your healthcare provider.

Thalassemia patients and their families can count on the NTR Memorial Trust Blood Centers for the availability of blood units. Our centers are always open and ready to help. We understand how important it is to have access to the resources you need, so we're committed to providing them. Contact us today if you're in need of a blood unit for your loved one.

NTR Trust is dedicated to helping thalassemia patients in need, offering them blood transfusions in Hyderabad. If you or someone you know requires assistance, please contact us for more information (contact.no: 040-48577888).

Reduced donations dry up blood banks

Thalassaemia patients who require regular transfusions hit

TUSHAR KAUSHIK | DC HYDERABAD, FEB. 12

Thalassaemia patients who require regular blood transfusions are having problems as blood reserves have reduced, owing to fewer donations during the festival season. Thalassaemia is a hereditary blood disorder in which the body produces less haemoglobin than normal. Due to this, patients require life-long blood transfusions every two to five weeks.

Ashwin Reddy, a thalassaemia patient who regularly undergoes transfusions the blood bank of the Thalassaemia and Sickle Cell Society (TSCS) here, said he had been asked to get donors for the past few weeks. He is relying on Twitter and WhatAapp groups to obtain blood, and has also approached other

nator at the society, said though some shortage occurs every year, it has been more pronounced this time. "In summers too, we have such shortages because of two reasons. Firstly, people are dehydrated and so do not come forward to donate. Secondly, we get a lot of donors from camps at colleges but when they are shut for summer vacations we lose out on those donations."

She said donation drives were conducted at IT firms too but were stopped since the onset of the pandemic, when firms switched to work-from-home. But now, with firms reopening their offices, they hope that they can resume the camps this year. The police department and NGOs provided a lot of help during the pandemic, she added.

ing the patients to get donors if possible," she said.

Dr Jain attributed the shortage to the festival season with Christmas, New Year, Sankranti and Republic Day all occurring at regular intervals, as few donors come forward to donate during festivals. The society is hoping that they will get more donors by February. C.H. Durga, camp coordi-

NTR Educational Institution proudly hosted Dr Jaya Prakash Narayan IAS (Retd.) as the chief guest for their 74th Republic Day celebrations. Dr Jaya Prakash Narayan, an honored and esteemed personality in the community, delivered an inspiring speech to commemorate this special day. The event was an extraordinary success and a tribute to Indian democracy and unity.

NTR Model School at Challapalli held a special celebration for Republic Day. Shri. Madhusudhan, principal was present along with all the staff and students. On this occasion, awards were presented to those students who achieved academic excellence, and to participants in the various sports events staged throughout the year. It was a joyous day for all!

The students of our school participated in the SSKI (Success Shotokan Karate Do India) event held at Shankarpally on 5th February 2023. They performed exceptionally well, taking home gold, silver, bronze medals, and merit certificates. We congratulate them for their success and are proud to have witnessed their triumph!

Education is fundamental to achieving various goals, such as knowledge, skills and character traits. At our educational institutions, students can learn and explore through multiple programs such as traffic awareness, pariksha pe charcha (discussion on exams), quiz competitions, NCC A Certificate Exam and more. This helps them engagingly develop their skills.

NTR Junior and Degree College for Women NCC cadets conducted a highly successful traffic awareness program in various locations near the college. It was an important initiative of the college which further promoted safe driving practices and helped spread awareness on road safety.

INAUGURATION OF HORIZON – THE CLUB OF FINE ARTS

The NTR Junior and Degree College for Women recently inaugurated the 'HORIZON' Club to promote an appreciation of fine arts. The inaugural function was hosted in the college auditorium, with Dr M.V. Rama Rao, Academic Dean, presiding over the meeting. The Chief Guest, Mrs Uma Magal, a renowned scholar from Hyderabad Central University and filmmaker, unveiled the Club alongside her associate Mrs Smita Rane and spoke encouraging words about sparking interest in fine arts among students. During her visit, Mrs Magal screened her film Other Kohinoors-The Rocks of Hyderabad, which students immensely enjoyed and imbued them with admiration for their city's landscape and natural beauty; it also showcased concepts of sustainable development achieved through equity in a poignant manner. The Academic Dean expressed his praise for this thoughtful approach to filmmaking that enlightens us on preservation efforts taken towards our precious environmental assets - an important lesson to behold!

NTR SUJALA

NTR Sujala Water dispensing system is a modern and innovative approach to water distribution and management. The integration of digital and IoT technologies allows for real-time monitoring and analysis of water production, distribution, dispensation, and consumption.

Real-time monitoring can provide valuable insights into water usage patterns and help identify areas where water conservation efforts can be focused. This system may also provide increased accountability and transparency in the water distribution process.

Overall, the NTR Sujala Water dispensing system could be a promising solution to water management challenges and may help to ensure more efficient and sustainable water use.

During the months of January and February, a total of 49,80,000 liters was distributed. Through this effort, it provided safe drinking water to approximately 1,24,500 families across the area.
