NTR SUJALA

In a world, where water scarcity is becoming an increasingly pressing issue, innovative solutions are essential for sustainable water management. We are excited to introduce the NTR Sujala Water Dispensing System, a groundbreaking approach that harnesses the power of digital and Internet of Things (IoT) technologies to transform the way water is managed, distributed, and consumed.

A New Era of Water Management

The NTR Sujala Water Dispensing System represents a significant leap forward in water management practices. By integrating advanced digital technologies with IoT capabilities, this system provides real-time monitoring and analysis of water production, distribution, dispensation, and consumption.

It aids in pinpointing areas for water conservation efforts, thereby enhancing efficiency and sustainability. The system's transparency and accountability in water distribution are unmatched, potentially revolutionizing water management practices.

In November '24 NTR Memorial Trust supplied 200 tankers, followed by 314 tankers in Decemberr' 24, each with a capacity of 5000 litres. This equates to a daily water supply of 20 litres per family. Approximately 4,284 families have benefited from NTR Sujala Water program, underscoring its significant impact on community welfare and resource management.

Education is not just about academic achievement; it is about opening doors to opportunities. For many children, especially those facing adversity, education serves as a beacon of hope. It equips them with essential skills, instills confidence, and fosters resilience. By investing in education, NTR Memorial Trust is investing in a brighter future for these children and, by extension, for their communities.

Mission

NTR Trust believes that every child deserves access to quality education, regardless of their background or circumstances. Its mission is to provide a nurturing learning environment for orphaned and underprivileged children, ensuring they receive the education they need to thrive academically and personally.
